(Detailed financial report attached)

• Regarding the audit opinions except for the separate and consolidated financial statements in 2023

Opinion excluding the inconsistency in the financial data of Viettel Cameroun S.A ("VCR") in the consolidated financial statements and the presentation of the investment in VCR in the investment in another entity.

Opinion excluding the recognition of provisions for doubtful debts for receivables from VCR in the separate and consolidated financial statements for 2023 with an amount of 1,918 billion VND (compared to 1,758 billion VND in 2022).

Opinion excluding the recognition of provisions for losses on investment in Telecom International Myanmar Company Limited ("Mytel") in the separate financial statements for 2023 with an amount of 509 billion VND (compared to 3,369 billion VND in 2022).

Viettel Global would like to explain as follows:

The opinion excluding the VCR is due to disagreements between VTG and local shareholders regarding the organization and management of VCR's business operations. As a result, VCR has not provided financial data from November 1, 2018, to December 31, 2023. VTG has prudently applied the guidance in Point b, Clause 1, Article 10 of Circular 202/2014/TT-BTC dated December 22, 2014, of the Ministry of Finance guiding the method of preparing and presenting consolidated financial statements transferring investments in VCR from investments in subsidiaries to investments in other long-term investments because by the date of issuing the audit report, VCR has not provided financial data for 12 months for consolidation as required. In 2022, the auditor issued an adverse opinion due to the inability to collect sufficient appropriate audit evidence related to the timing and impact of the inconsistency in VCR's data, as well as the evaluation of the recoverable value of receivables from VCR. The impact of the adverse opinion in 2022 led the auditor to issue an adverse opinion on the items recognized in 2023.

The opinion excluding the provision for losses on investment in Mytel is due to the cautious evaluation of the political situation in Myanmar by VTG. The complex and unpredictable developments in the political landscape of Myanmar continue to impact the business operations of Mytel. Therefore, in 2023, VTG decided to provision for the remaining portion of the contributed capital with an amount of 509 billion VND, resulting in a cumulative provision for losses on investment in Mytel of 3,878 billion VND as of December 31, 2023, corresponding to the total capital contributed by VTG to Mytel. In 2022, the auditor issued an adverse opinion due to the inability to collect sufficient

appropriate audit evidence related to the assessment of the recoverability of the investment in Mytel. The impact of the adverse opinion in 2022 led the auditor to issue an adverse opinion on the items that still need to be provisioned for in 2023.

2. Report on the utilization of charter capital in 2023

During the period from January 1, 2023 to December 31, 2023, the Company utilized the funds raised from the issuance of new shares to increase its charter capital for the following purposes:

<i>No.</i>	<i>Content</i>	<i>The total funds utilized as of December 31, 2022</i>	<i>The total funds utilized during the year 2023</i>	<i>The total funds utilized as of December 31, 2023,</i>
